Give your next pneumatic conveyor the PNEUMATI-CON® advantage:

It takes more than a great pneumatic conveyor to deliver your bulk material with top efficiency. It also takes process engineering experts who know, in advance, how your process equipment, storage vessels, and material will affect your conveying results.

Which is why you should rely on Flexicon. Under one roof you will find a comprehensive line of robust pneumatic conveyor components from filter receivers and rotary airlock valves to cyclone separators and blowers, and the in-depth pneumatic experience it takes to size and configure them to yield maximum efficiency, longevity and cost effectiveness.

As importantly, you will find experienced process engineers who draw on Flexicon’s 15,000+ installations integrating conveyors, screeners, grinders, crushers, blenders, weigh hoppers, bulk bag unloaders/fillers, bag/drum dump stations, and/or storage vessels—experts who understand how your upstream and downstream equipment can impact, and be impacted by, the operation of your pneumatic conveyor.

Going the extra mile to outperform competitive pneumatic conveyors is what the PNEUMATI-CON® advantage is all about.

It’s what enables Flexicon to guarantee top results, and you to make pivotal improvements to your process with absolute confidence.

The pneumatic conveying expertise you need for top efficiency, plus the broad process experience you need for seamless integration with your upstream and downstream equipment.
